Postgraduate students in the School of Physics (Hons, Masters & PhD) receive a number of resources which are provided “in kind”. They include the following:

- Photocopying & printing
- Telephone
- Stationery
- Computer
- Office and laboratory space
- Email and internet access
- Technical & administrative support

Research groups receive a proportion of their discretionary funding (approx. $1,000, although this varies annually) from the School based on the number of students they have. Students may apply for funding for other initiatives (e.g. travel) from their research supervisor.
